(48) 98403-7518

2002
Finishing the first Graduate and leaving a graphic job to work as a Webdesigner.

2013
Finishing second graduation and completely mastering Webdesign. And a lot of UX / UI experience, especially with e-commerce.

2015
The beginning of his career also as a Front-end Developer. Joining UX / UI to Interface Development as Dev.

2018
Completing my Post-graduate in Interaction Design and expanding my vision of UX / UI becoming a professional with a greatly expanded view of the entire Front-end cycle. Start of Remote worker process.

2022
Range of great evolution and many professional transformations. Great improvement as a professional, dealing with project leadership, teaching, and learning like never before with high-performance teams.
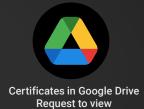

Greater application of knowledge in programming started in 2015. Implementing with great ease all accumulated knowledge.
